

Future Glass Website COLORVIEW

COLORVIEW

Back-painted panels that offer perfect opacity every time.

Enjoy vibrant aesthetics with our range of back-painted panels, COLORVIEW. We can use multiple colours and techniques with gradients and special effects to meet design requirements. These panels are painted from one side, offering perfect opacity. Our high-quality processing ensures lifelong durability. Depending on the need, we can create flat, curved, and heat-treated COLORVIEW panels for cladding, backsplashes, doors, partitions, glass ceilings, bathrooms, shower enclosures and elevator walls.

Key Features

Enhanced Spatial Aesthetics

Offers a clean, uniform & luxurious finish on the walls.

Design Flexibility

Wide ranges of colour customisations possible in standard and metallic finishes. Can also create special effects with multiple colours.

Low-Maintenance

We fuse the colour to the glass to prevent scratches and peeling, ensuring these panels require minimal maintenance.

Heat & Humidity Resistant

High endurance to heat and moisture that makes it suitable for kitchen backsplash and bathrooms.
